

High Security and Convenience

ABLOY[®]

Introduces the Newest Removeable
Core High Security Cylinder: the CY419 Schlage[®]

We now offer 2 units, the CY416 to retro-fit Yale[®] LF, and now the CY419 to retro-fit Schlage[®] I/C. These removeable core I/C cylinders incorporate the Patented Abloy[®] Protec rotating disc cylinder.

The CY416N will retro-fit
YALE[®] LF large format handles.

The CY419N will retrofit
Schlage[®] brand I/C products.

- Virtually pick proof
- Bump proof
- Patented key profiles
- 2 billion combinations
- Durable and resistant to extreme environments
- Made of hardened steel to resist attack and UL listed
- Change out key (Control Key) can be had at any key level
- Can be keyed into existing Master Key systems

The Abloy[®] Protec key system offers a full range of high security products all operating on a single key profile.

Schlage[®] is a registered trade mark of Ingersoll Rand.
